

HARRY POTTER PROJECT

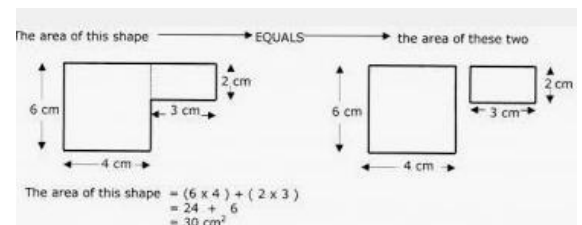

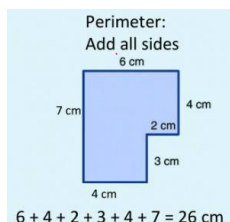

Welcome back Neptune Class- I hope you had a good half term! Between now and the 14th June, I have set a Harry Potter theme project! Choose two activities to complete each day and complete them in your book. Send any pictures to hannah.lupton@fishwick.lancs.sch.uk

Additionally, there is reading tasks to be completed on purple mash and maths tasks (time) to be completed on purple mash.

Enjoy!

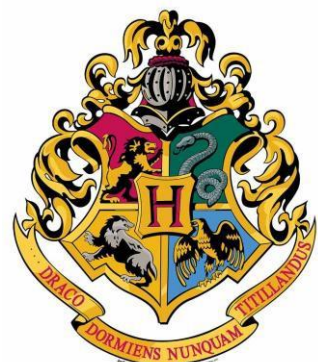

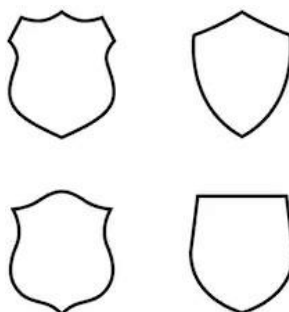

Task 1

Harry Potter's dorm would feel quite cramped during lockdown! I would like you to redesign Harry's Dorm to make it as comfortable as possible. Apart from a bed, what else would Harry need in his dorm during lockdown? How can you decorate it to suit Harry's personality (create it for another character if you want!). If you have a ruler, I would like you to draw it using precise measurements - challenge: can you work out the perimeter and area of his new dorm?

Task 2

If Hogwarts decided to make another house using your last name, you would need to have your own house crest. I would like you to choose an animal and create your own. What qualities would people have to have in order to join your house?

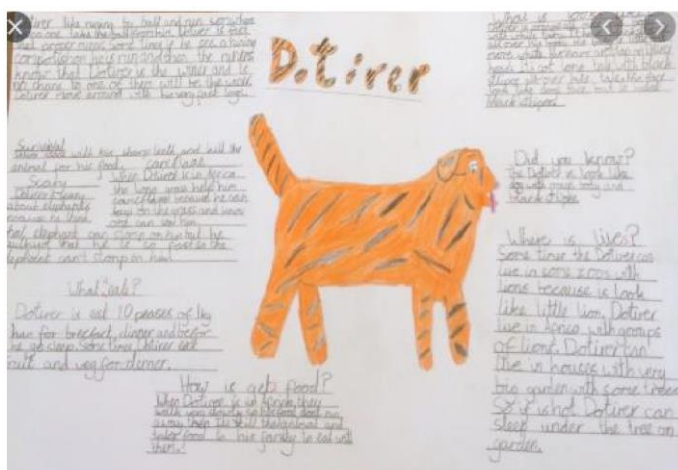

Task 3

There are plenty of fantastic creatures in Harry Potter, from dragons to mermaids! Can you create your own mystical animal? Draw, paint or make your animal!

Task 4

Create a non-chronological report about the creature you created.

Task 5

Diagon Alley has a space for one new shop. What shop do you think the pupils of Hogwarts would like? Design the outside of a new shop.

Task 6

Create a poster to advertise the shop you created. How can you make it eye-catching for the students of Hogwarts?

Task 7

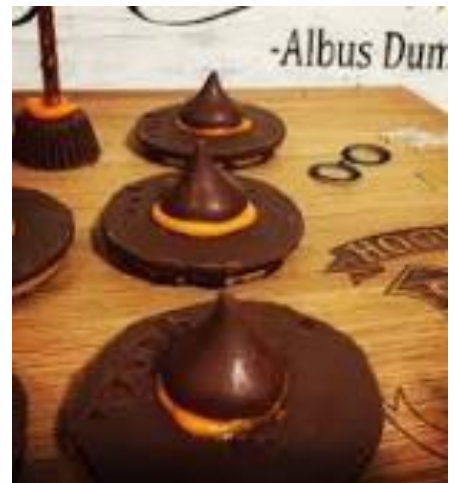

Once the restrictions of lockdown are slightly lifted and people are allowed to meet other people in outdoor spaces, the students of Hogwarts will want somewhere nice they can go. I would like you to create a new outdoor space for the students to enjoy. However, you have a budget of £1500! Use the below websites to choose flowers, plants, seating etc.

<https://www.homebase.co.uk/>

<https://www.ikea.com/gb/en/search/products/?q=garden>

Task 8

Create Harry Potter inspired food and send a picture of your creation.

Task 9

The students of Hogwarts want a new sport to play other than Quidditch. Create a new game and write instructions about what equipment they will need and how to play the game.

Task 10

The Quidditch World Cup involves teams from different countries. Research one of the countries who compete. Find out: the population of the country, what the climate is like, what the main landmarks are and what the main religion is.

Task 11

Create a new character, who would fit well into Hogwarts. Write a character description or a scene when Harry Potter meets your new character for the first time.

Task 12

On purple mash, write about the life of JK Rowling- the author of Harry Potter

Task 13

Design your own wand. What would it be made of? What spells would it cast? What would your Patronus be?
