

Earth Class News

Welcome back after the Easter break! We have had a busy and exciting week. We had a special arrival on Monday of some eggs in an incubator. We are now looking after 7 baby chicks for 2 weeks! The children are so excited.

We are learning about life cycles and have learned about the life cycle of a chicken as well as reading 'The Very Hungry Caterpillar.' Some of the children decided to make their own caterpillar from recycled materials and feed it.

In maths we have been learning about numbers 10-20.

Have a lovely weekend!
